Objectives & Outcomes

Since the inception of Neighbors Helping Neighbors (NHN) in 2020, our initiative has focused on connecting Latino families with the broader community and essential services, fostering trust, and building cultural bridges. Our primary objectives have been to enhance inclusivity, support community-driven initiatives, and promote understanding across cultural lines.

We have experienced remarkable growth, expanding our reach by over 300%. This growth is a testament to the community's trust in NHN and the increasing recognition of our efforts. Through partnerships with various local organizations, we have integrated new community partners into our initiatives, enhancing our capacity to serve and support our community.

One of our significant achievements is the support and development of new events & programs, such as the Dia Del Nino & Community Dinners which have become a cornerstone for fostering dialogue and unity among diverse community members. These events have provided a platform for sharing experiences, skill building for our youth, and most importantly, enjoying life.

Our efforts have not only strengthened local Hispanic leadership but also enriched the entire community, together with our amazing community partners, thereby fostering a more healthy & vibrant community.
